

Entrusted Solutions Overview

Entrusted Solutions, LLC, is a provider of information technology (IT) consulting services with expertise in Enterprise Content Management (ECM) and XML authoring/publishing solutions. Our solutions provide organizations with the power to leverage content across business functions throughout the enterprise and achieve incremental and immediate value from their investments by streamlining business processes, reducing costs and risk, and boosting return on investment. Headquartered in Berwyn, PA, we provide our services to leading companies in the Life Sciences industry.

We are dedicated to partnering with our clients to bring experience, best practices, and tools to apply to our clients' unique requirements. We are committed to the personal success of your project stakeholders and their projects by delivering the right solution for your business.

We pride ourselves on our quality of work, domain experience, and delivering what we promise.

Our Services

We provide a wide range of strategic and project services that create robust, high-quality, scalable, and supportable solutions to integrate your enterprise content management and collaboration needs with business processes and applications, resulting in improved compliance, cost efficiencies, and best practices for your business.

Technologies

Content Management Platforms

Entrusted Solutions can assist you with its breadth and depth of expertise in content management and collaboration platforms, including Microsoft® SharePoint® and EMC® Documentum.

ConVerge® Solution Suite

ConVerge® brings together ECM best practices and best-of-breed technologies into one solution suite. Built on the Microsoft SharePoint 2010 platform, the ConVerge solution suite provides organizations with the ability to manage all aspects of content within the enterprise with pre-configured business solutions and common functionality that is both extensible and regulatory compliant.

XML Authoring & Publishing

Get more out of your content using XML through reuse and repurposing. Entrusted Solutions can assist you in implementations of structured authoring and dynamic publishing solutions that use a range of products.

Business Focus

Leading clients from the initial assessment of their business processes through the delivery of an integrated solution, Entrusted Solutions has the necessary expertise to help your business succeed. We offer extensive Enterprise Content Management and domain experience in the following areas:
